

- *The desktop KONEXX Conference connects your teleconferencing unit to any digital PBX or multi-line phone system for audio-conferencing in the most cost effective way.*

KONEXX® Conference

With the KONEXX Conference, you can now connect your teleconferencing unit directly to your office digital PBX or multi-line phone system and eliminate the need for expensive dedicated phone lines or PBX adapters.

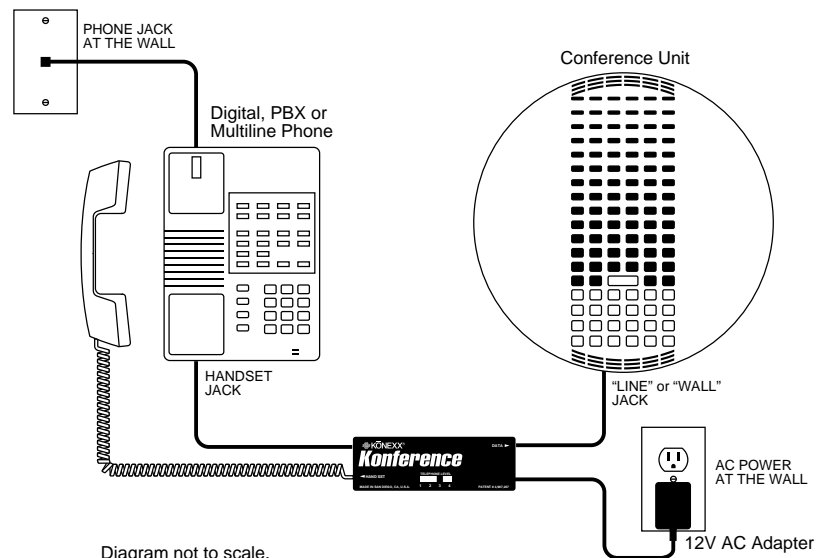

Simply plug the teleconferencing unit into the KONEXX Conference and plug the Conference into the handset jack of your office telephone and you're ready for reliable audio-conferencing. Supporting full duplex

operation, your teleconferencing unit will operate at its peak performance.

The compact Conference is compatible with virtually all analog teleconferencing units and can be easily switched to assure reliable operation with most domestic and international phone systems.

The KONEXX product line is assembled in the U.S. by KONEXX, a supplier of award-winning Computer Telephony Interface products for nearly 10 years. In addition to highly qualified technical support, the KONEXX Conference carries a 2-year factory warranty and includes certifications from UL, FCC, CSA and numerous foreign approval agencies.

Reduce your teleconferencing setup costs—get connected with the versatile KONEXX Conference.
